FORM OF ANNUAL REPORT ON COMPENSATION OF DIRECTORS OF LISTED PUBLIC LIMITED COMPANIES

A COMPANY COMPENSATION POLICY FOR THE CURRENT YEAR

A.1 Please explain the Company's compensation policy. This section will include information on:

- General principles and foundations of the compensation policy.
- Most significant changes to the compensation policy with respect to the previous year's policy, as well as any modifications made during the year to the conditions for exercising options already awarded.
- Criteria used and composition of groups of comparable companies whose compensation policies have been examined to establish the Company's compensation policy.
- Relative importance of variable compensation items in relation to fixed compensation items and criteria followed to determine the different components of the Directors' compensation package (compensation mix).

Explain the Compensation Policy

The compensation system of the Directors of the Company is provided for in Article 27 of the Company's Bylaws that, for this purpose, establishes the following:

- 1.- The position of Director is compensated. Notwithstanding the foregoing, the shareholder-appointed Directors who, at the same time, are Directors of the Parent Company shall not be remunerated as Directors of the Company, in their condition as such.
- 2.- With the exceptions provided for in the previous point, the Director's compensation for their position as such consists of a fixed yearly allowance and per diems for attending each meeting session of the Board of Directors and its Committees. Any compensation the Company may pay its Directors collectively and this shall not exceed the maximum quantity of that fixed for that purpose by the General Shareholders Meeting, and shall remain in force until this body resolves that it be changed. The Board of Directors shall determine, upon the proposal of the Appointment and Compensation Committee, the exact amount to be paid within that ceiling and how it is divided amongst the various Directors.
- 3.- Furthermore, Directors performing executive functions, whatever the nature of their legal relationship with the Company, shall be entitled to receive compensation for which they have agreed for the performance of said functions, including, in the case may be, participation in the incentive systems that, where appropriate, that may be established on general terms for the senior management of the Company, that may be the allocation of shares or share-options, or share-performance-indexed compensation, subject to the provisions established in the legislation in force at any given time, and the participation in the appropriate pension and insurance schemes. In the event of termination of said functions, the same may have the right, on such terms and conditions as approved by the Board of Directors, to an adequate financial compensation.

The Compensation Policy seeks to compensate the Directors of the Company in a manner that reflects their dedication and assumed responsibility, and is commensurate with that paid at comparable companies on a National and International level, taking into consideration the interests in the long-term of all shareholders.

The Compensation Policy of the Company distinguishes between the compensation system for the performance of duties as Director in their condition as such and the compensation system for the performance of executive functions on the part of the Executive Directors.

In the case of Executive Directors, the key is to offer compensation systems that make it possible to attract, retain, and motivate first-class, outstanding professionals to achieve the strategic objectives within the ever more competitive and internationalized framework in which the Company operates.

Therefore, the Compensation Policy is based on the following principles and criteria:

- Create long-term value for the Company, aligning the compensation systems with the strategic plan.
- Attract, motivate, and retain the best professionals.

- Responsible attainment of the objectives, in accordance with the Risk Management Policy of the Company.
- Transparency in the Compensation Policy.

The General Shareholders Meeting of the Company is responsible for approving the Compensation Policy of Prosegur Cash's Directors. The Compensation Policy of the Directors, approved at the General Shareholders Meeting on 6 February 2017, shall be in effect during fiscal periods 2017, 2018 and 2019. Any modification or substitution of the same during said term, shall require the prior approval of the General Shareholders Meeting.

A.2 Please provide information on the preparatory works and decision-making process followed for determining the Compensation Policy and the role, if any, of the Compensation Committee and other controlling bodies in shaping the Compensation Policy. This information will include, where appropriate, the mandate and composition of the Compensation Committee and the identity of external advisers whose services have been used to define the Compensation Policy. The character of the Directors, if any, who were involved in defining the Compensation Policy should also be included.

Explain the process for determining the Compensation Policy

The Appointments and Compensation Committee (hereinafter the "Committee") meets twice a year, and in one of its meetings it prepares the Annual Report on Compensation of Directors. Through the same, the Committee proposes to the Board of Directors the system and amount of the annual compensation of the Directors for the current year, and report on its application in previous and future fiscal years. In fiscal year 2017, no mandate has been extended to any External Auditor to define the Compensation Policy.

Next, the Board of Directors approves the compensation of the Board of Directors for the current fiscal year and the Annual Report on Compensation of Directors as a separate item on the Agenda. An example of said report duly completed by the Secretary is deposited in the Secretariat of the Company.

Once the Annual Report on Compensation of Directors has been approved by the Board of Directors, the same then proposes to the General Shareholders Meeting the approval at the General Shareholder Meeting the approval, on and advisory basis, of the same as a separate item on the Agenda.

Likewise, the Appointments and Compensation Committee proposes to the Board of Directors the individual compensation and other terms of contract of the Executive Directors, ensuring notice thereof.

During fiscal year 2017, the Appointments and Compensation Committee comprised of:

Chairman: Mr. Claudio Aguirre Pemán

Committee Members:

Mr. Pedro Guerrero

Ms. Ana Sainz de Vicuña Bemberg

Non-voting Secretary: Mr. Juan Luis Martín Carrera

A.3 Please indicate the amount and nature of the fixed components, itemizing where appropriate any compensation for the performance of senior management duties by Executive Directors, additional compensation for the Chairman or Members of any Board Committee allowances for participating in the Board and its Committees or other fixed compensation as a Director, as well as an estimate of the resulting fixed annual compensation. Identify other benefits that are not paid in cash and the basic criteria on which they are awarded.

Explain the fixed components of the compensation

On 6 February 2017, the General Shareholders Meeting of the Company agreed to fix, with effect from fiscal year 2017 and the following years, at 1,500.000 euros the maximum amount of compensation that the Company may pay to their Directors for their condition as such.

In fiscal year 2017, the fixed components of the compensation of the Board of Directors were fixed at the following amounts:

- Board of Directors: fixed yearly remuneration of 52,000 euros with a per diems allowance of 1.650 euros, for both the Chairman and Committee Members.

- Auditing Committee: fixed yearly remuneration of 30,000 euros for the Chairman and Committee Members; both positions having a per diems allowance of 1,650 euros.

- Appointments and Compensation Committee: fixed yearly remuneration of 16,000 euros for the Chairman and 13,000 for the Committee Members; in both cases with a per diems allowance of 1,250 euros.

In addition, the following fixed compensation have been established:

- Executive Chairman: 374,876 euros
- Vice Chairman: 100,000 euros
- CEO: 260,000 euros (including the remuneration amount of the post-contractual non-competition covenant)

A.4 Please explain the amount, nature, and primary features of the variable components of the compensation systems.

In particular:

- Identify each of the compensation plans of which the Directors are beneficiaries, their scope, date of approval, date of implementation, validity period, and their main features. For plans involving share options and other financial instruments, the general features of the plan should include information on the conditions for each plan regarding exercising those options or financial instruments.
- Identify any compensation awarded as profit sharing or bonuses, and the reason why they were awarded.
- Explain the basic parameters and grounds for any system of annual bonuses.
- The types of Directors (Executive Directors, External Shareholder-appointed Directors, External Independent Directors or other External Directors) who are beneficiaries of compensation systems or plans that include variable compensation.
- The basis of those variable compensation systems or plans, the performance assessment criteria chosen, as well as the assessment components and methods for determining whether or not said assessment criteria have been fulfilled, and an estimate of the total absolute amount of variable compensation to which the current compensation plan would give rise, depending on the extent to which the benchmark hypotheses and objectives are fulfilled.
- Where appropriate, please provide information on any payment deferral periods established and/or retention periods for shares or other financial instruments.

Explain the variable components of the Compensation Systems
--

The Executive Chairman and the CEO receive a short-term variable compensation, results orientated, in accordance with the terms established for fiscal year 2017:

- Executive Chairman: target amount 250,000 euros gross up to a maximum of 375,000 euros gross.
- CEO: target objective 130,000 euros gross up to a maximum of 195,000 euros gross.

The attainment of the foregoing variable compensation is directly linked to the level of attainment of the objectives. These objectives are decided based on their relevance to the Company, as well as the creation of sustainable value.

Short-to-medium term variable compensation (Long-Term Incentive - LTI):

- The Executive Chairman and the CEO participated in the Long-Term Incentive Plan 2015-2017 of Prosegur Compañía de Seguridad, S.A. known as the "2015-2017 Plan", approved by the General Shareholders Meeting of Prosegur Compañía de Seguridad, S.A. on 28th April 2015. This plan covers fiscal years 2015 to 2017.
- With the Company going public on 17 March 2017, approved the continuity of the participation of the Executive Chairman and CEO in the 2015-2017 Plan, whilst adapting it so as to fully align their interests with those of the shareholders of the Company, and, assuming the terms of the same as well as the obligation to pay the corresponding incentive to the aforementioned individuals.

- The Executive Chairman receives, in the case may be, 100% of their compensation in shares whilst the CEO receives 50% in cash and 50% in shares, with a tenure clause for the CEO of two additional fiscal years to receive part of the incentive.
- One-sixth of the incentive of the Executive Chairman under the terms of Plan 2015-2017 goes from being related to the Value Creation for the Company on a global level during period 2015-2017 to being payable in shares in Prosegur Cash instead of shares in Prosegur Compañía de Seguridad, S.A.
- The total incentive amount of the CEO under the terms of Plan 2015-2017 goes from being related to the Value Creation for the Company on a global level during the period 2015-2017 to being payable in shares in Prosegur Cash instead of shares in Prosegur Compañía de Seguridad, S.A.
- The Long-term Initiative (LTI) objectives are linked to the Value Creation for the Company on a global or unit level (region or country) depending on the position held and the area of responsibility of the beneficiary and, when deemed appropriate, their individual objectives. Value Creation for the Company is calculated based on relevant measurements for the business such as EBITA, debt, CAPEX, etc. during the validity period.

Furthermore, it is hereby stated that during financial year 2018 the settlement of the Long-Term Incentive (LTI) 2015-2017 of the Company was paid out. In this respect, the Board of Directors have put forward the proposal, subject to the favourable report from the Appointments and Contributions Committee, that measurement of the Value Creation be linked to the foregoing Plan, taking into account any adjustments the Appointment and Compensation Committee deem appropriate for handling extraordinary situations thereof (including any adjustments not considered in the original Strategic Plan), weighting the effect of inflation/devaluation in any of the countries in which they operate and taking into account any qualitative elements, and worthy of recognition of a degree of attainment of 125% on the foregoing incentive.

A.5 Please explain the main features of the long-term savings systems, including retirement and any other survivor benefits, partially or wholly funded by the Company, whether provided internally or externally, estimating their amount or equivalent annual cost and indicating the type of plan, whether defined benefit or contribution, the conditions of the vested economic rights of the Directors and their compatibility with any type of compensation for early termination of the contractual relationship between the Company and the Director.

A.13 Please explain the actions adopted by the Company in relation to the compensation system to reduce exposure to excessive risks and adapt it to the long-term targets, values, and interests of the Company, which will include, where appropriate, reference to measures designed to ensure that the Compensation Policy considers the long-term results of the Company, measures that establish a balance between the fixed and variable components of compensation, measures adopted for those categories of personnel whose professional activities have a material effect on the Company's risk profile, debt collection formulas or clauses to claim a refund of results-based variable components of the compensation if those components have been paid according to data which has subsequently proved to be clearly inaccurate, and measures to avoid any conflicts of interests where appropriate.

Explain actions adopted to reduce risks

The compensation variable of the Executive Chairman and CEO, for both the yearly variable compensation as well as the Long-term Initiative (LTI) variable, is linked to the performance of the Company related to determined economic-financial parameters aligned with its strategic objectives, with the aim of encouraging the retention and motivation of the same and the long-term Value Creation, according to the specific objectives established for each fiscal year or period, on resolution by the Board of Directors to the proposal by the Appointments and Compensation Committee.

The degree of attainment of the objectives and, by default, the amount earned shall be determined on close of the fiscal year by the Appointments and Compensation Committee.

The Long-term Incentive (LTI) has a temporary time horizon of three years (i.e., the strategic plan shall cover a period of three consecutive fiscal years), with a period of office, in the case of the CEO, of two additional fiscal years to qualify for payment of part of the incentive and that linked to the Value Creation for the Company on a global and unit level.

In addition, the contract entered into with the CEO covenants their commitment to return the amount corresponding to any variable compensation (yearly or multiyear) paid when subsequently proved clearly not to have been adjusted to the performance conditions or when paid based on data that is subsequently proved to be inaccurate.

D.2 Report on the relationship between the compensation obtained by the Directors and the Company's results or other performance-related measurements, explaining, where appropriate, how variations in the performance of the Company are able to impact variation in the compensation of Directors.

The Executive Chairman and the CEO receive a short-term variable compensation, that is results-orientated and subject to the terms that are set for the fiscal year 2017:

- Executive Chairman: target gross amount 250,000 euros and maximum gross amount 375,000 euros.
- CEO: target gross amount 130,000 euros and maximum amount of 195,000 euros.

The attainment of the foregoing variable compensation is directly related to the degree the targets are attained. These targets are chosen taking into account their relevance to the Company, as well as the creation of sustainable value.

In addition, the Executive Chairman and the CEO (as well as other members of senior management in Grupo Prosegur Cash) participate in a Long-Term Incentive plan (LTI). The Executive Chairman receives, in the case may be, 100% of their compensation in shares in Prosegur Compañía de Seguridad, S.A. (up to a maximum of 956,856 shares) and the CEO receives, in the case may be, 50% in case (up to a maximum of 412,500 euros) and 50% in shares in Prosegur Compañía de Seguridad, S.A. (up to a maximum of 87,712 shares), with a tenure clause in the case of the CEO of two additional fiscal years to receive part of the incentive.

One-sixth of the incentive of the Executive Chairman (i.e., up to a maximum of 159,476 shares in Prosegur Compañía de Seguridad, S.A.) is related to the objective of the Value Creation for the Company on a global level during the financial period 2015-2017. Said part of the incentive, for the amount payable, in the case may be, shall be compensated by the Company in own shares, converting the shares of Prosegur Compañía de Seguridad, S.A. into shares of Prosegur Cash.

The total incentive amount of the CEO (i.e., up to a maximum of 412,500 euros plus 87,712 shares in Prosegur Compañía de Seguridad, S.A.) is related to the objective of the Value Creation for the Company on a global level during the period 2015-2017. Said part of the incentive, for the amount payable, in the case may be, shall be compensated by the Company in own shares, converting the shares in Prosegur Compañía de Seguridad, S.A. into shares in Prosegur Cash; with a maximum, in any case, of 351,000 shares in Prosegur Cash.
